SUMMARY

Full stack web developer with hands-on experience in JavaScript, SQL, Git, and the MERN stack. Proven track record of problem-solving, fostering collaborative relationships, and building enthusiasm. Adept at empathizing with both client and internal teams. Voracious growth mindset. Bringing these skills, along with my strong work ethic, to my tech career.

EXPERIENCE

Owner
Willpower, LLC - Personal Trainer   **February 2021 - Present, Franklin, TN**
• Launched a client-first personal training business, reaching 100% capacity within six months.
• Monitored progress with assessments and tracking results to motivate clients, optimize performances and increase longevity.
• Developed mobile-first full stack application to optimize client info, personal payment methods, and digital waivers.

Manager
Pure Sweat + Float Studio   **August 2021 - February 2022, Nashville, TN**
• Increased monthly revenue by 22% while maintaining customer satisfaction level by introducing new products and vendor collaborations.
• Efficient time-manager, prioritizing tasks and delivering a first-class experience, training and developing six team members at two studio locations.

Lead Coach
Iron Tribe Fitness   **January 2018 - April 2021, Nashville, TN**
• Implemented product vision and strategy, leading 175+ athletes, relationship building, sales, client engagement and retention.
• Grew from client to coach/staff within the first year of membership, resulting in high-impact levels with both clients and internal team members.

PROJECTS

athletetracker app
Vanderbilt University Full Stack Web Developer Program • January 2023 - January 2023

• MERN-stack single-page application built for personal trainers to have access to client information, digital waiver, and payment options--all at their fingertips.
• Increases trainers efficiency and accuracy with real-time digital waiver signing and delivery to email for storage, in-person progress recording and payment collection, and eliminates redundant recording of information.
• Scalable MongoDB back end, a GraphQL API, Express.js and Node.js server with a React front end, and user authentication with JWT to build a user-focused platform.

SKILLS

Currently working on AWS certification. Technical skills: Javascript, ReactJS, HTML5/CSS3, Bootstrap, JQuery NoSQL, MongoDB, Mongoose ODM, REST and 3rd Party APIs, Express.js, Node.js, Apollo/GraphQL, MySQL, Handlebars.js Soft Skills: Empathy and partnership building to act as translator between client-facing and internal-facing teams , desire to contribute meaningfully and quickly, strong work ethic--both independently and collaboratively, entrepreneur spirit.
